

PRODUCT PROFILE

Comint Systems And Solutions proud to introduce as a leading System Integration Company established in 2004 with Head Office at Hyderabad, and we support all over India with well experienced engineers / scientists to provide our capabilities in terms of products & customized solutions in the following areas.

Telemetry Solutions: Test Range Solutions, On Board Data Acquisition Systems, Mobile/Standalone/Portable /Pocket PC Systems, Bit Synchronisers, PCI Products, Telemetry Data Processing Systems, Decom System, Virtual 3D Visualisation Software.

Network Security & Access Monitoring: Network Taps, Aggregator Taps, Aggregation Switches & Blades, Bypass Switches, Director, 10G & 40 G Network Capturing Adapters, Network Traffic Generator Tools, GPS Synchronisation Products & Timing Solutions, Test & Measurement Software for IP Networks, Content Filtering & Processing Device, Intrusion Prevention Systems (IPS), IDS Load Balancer, Secure Controller, Protocol Analysers, Media Converters, Cables & Accessories

Recorders: High Performance Wide Band Disc Recorders for recording and reproducing of IF (21.4, 60, 70, 140, 160 MHz) and Baseband with programmable in steps from 500 KHz to 100MHz. These recorders are available with a number of features specially tailored for Electronic Warfare / SIGINT/ COMINT / ELINT/Telemetry Applications.

Satellite & Telemetry Telecommand Solutions: High Data Rate Receiver & Modems, Programmable Telemetry Processors (PTP), High Data Rate Front End Processors (PTP-Ex), CCSDS Space Link Extensions, Bit Error Rate Testers (BERT), MUX/DeMux, Data Link Solutions.

Avionics & Industrial Data Buses: Gigabit Ethernet Interface to MIL Std 1553, ARINC429, CAN BUS, RS-485, AFDX/ARINC664 Stand alone & Portable Avionic Solutions.

Mil / Rugged / Embedded Computers: Mil-Grade Laptops, 19" Industrial PCs, Embedded Systems, Panel Systems, Box PCs , Servers, Industrial Displays, SBCs, etc

Antennas & Masts: Military (HF, VHF and UHF) Antennas, Antennas for marine Applications, Antenna masts (tubular sectionalised and telescopic glassfibre masts from 5 to 18 m)

Software : Total Integrated Healthcare ERP & IT related Products & Solutions

Customisation, System Integration & Engineering: Operations, Maintenance & Support, Test Benches & Simulators, Test & Measuring Instruments. Comint has a team of dedicated hardware & software engineers with rich experience in carrying Product Design, System Integration & Application Software Development and provides customised solutions in the above fields.

Comint has developed strong customer base in India and executed several orders with global strategic partners like a) *Eurilogic MAGALI, France* b)*Avalon Electronics Ltd, UK* c) *Avtec Systems Inc, USA* d) *MBS Electronic Systems GmbH* e) *Net Optics Inc, USA* f)*APCON Inc, USA* g) *Napatech Inc, USA* h) *DSM, Germany* i)*ZTI Telecom, France* j)*Apogee Labs Inc, USA* k) *Kontron*

Please send us your valuable enquiries, which will enable us to serve you with our prompt service and solutions.

For COMINT SYSTEMS AND SOLUTIONS
